RePlus Dental Implants
With HA Coating
Traditional 510(K) Submission

510(K) Summary (21CFR 807.92(a))

1. Submitter's Information

Company Name: Implant Direct LLC

Address: 27030 Malibu Hills Rd., Calabasas Hills, CA USA 91301

Telephone Number: 818-444-3300

Fax Number: 818-444-3400

Registration Number: 3001617766

Contact Person: Tom Gottenbos

Date Summary Prepared: October 11, 2007

Classification Name: Implant, Dental, Endosseous

Common/Usual Name: Endosseous Dental Implant

2. Device Trade Name: RePlus Dental Implants With HA Coating

3. Predicate Device(s): Zimmer Dental Tapered Screw-Vent Dental Implants (K013227), Nobel Biocare Tapered Groovy Implants (K29352) and Implant Direct's Spectra-System (K061319)

4. Device Description:

The RePlus Implant system consists of tapered screw-type endosseous implants with the same standard "V" thread configuration, the same 2mm of mini-threads near the top of each implant, are manufactured using the same medical grade titanium alloy material and are coated with the same soluble blast media (SBM) blasted surface treatment or HA plasma sprayed. The HA coated variety of these implants are the subject of this submission.

5. Intended Use:

The RePlus Dental Implants with HA coating are dental implant fixtures that are a part of a two-piece implant system. The RePlus implants are intended for use in the mandible and maxilla, in support of single or multiple-unit cement or screw receiving fixed restorations and for retention and support of overdentures. The implants are intended for immediate loading for support of single tooth and/or multiple tooth restorations, provided initial implant stability and appropriate occlusal load requirements are met.

6. Device Comparison:

RePlus System Dental Implants With HA Coating compare favorably to similar devices found within the cited predicates. The implants within this submission are used in an identical function as the cited predicates. The implants within this submission have nearly identical technological characteristics, intended use, and materials used in manufacture as the cited predicates

Re: K073161

Trade/Device Name: RePlus Dental Implants With HA Coating
Regulation Number: 21 CFR 872.3640
Regulation Name: Endosseous Dental Implant
Regulatory Class: II
Product Code: DZE
Dated: February 28, 2008
Received: February 29, 2008

Dear Mr. Gottenbos:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

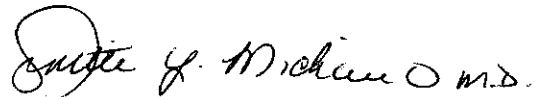

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely yours,
